A STORM AT LOUISVILLE.

Dozens of Houses in Ruins as a Resuit of Its Fury.

Cleveland Also Suffers from Boreas Blasts-The Collapse of a Building in Chicago Attended with Fatal Results.

DETROIT, May 23 .- A terrific wind and rain storm broke over the city this morning. It continued to increase in vio lence. At noon it was blowing sixty miles an hour. The streets were almost obstructed by broken shade trees. Nearly all the telegraph and telephone wires are down and it is feared that much damage is done throughout Michigan and many wrecks on the lake. It is known that great damage resulted at Adrian.

At Lebaher Junction the storm amounted to a tornado. Barns were blown down, orchards destroyed, and crops leveled to the ground. The high-ways between Adrian and Tecumsch are almost impassible, being obstructed by overturned trees.

At Romulus buildings were blown down, windows broken and trees uprooted. Many buildings were unroofed in the vicinity of Dundee. At Holly the opera house was unroofed and half the building wreeked,

CALIFORNIA GRAIN CROP.

Reports Show That It Is Badly Damage and Will Fall Short.

San Francisco, May 23,-Reports of the showing of the grain crop of Califor-nia indicate material damage from unfavorable weather conditions. Early in the eason excessive rains and floods in the northern part of the state destroyed much new sown grain and reduced the usual wheat average in that section at least 30 per cent. There was a promise, however, of an enormous yield in the upper San Joaquin valley, and southern California, and good reason to expect that the production in the state as a whole would be an average; but continued drouth has rendered the conditions uneven in the south as well as the north. Some counties report prospect of excess over last year, while in others the deficit is expected to be heavy. Recently the weather has been somewhat more favorable and all crops sown carly last fall are doing fairly well, but late sown grain in many places is in a precarious condition. Much grain in the lower San Joaquin is beyond redeemption and most be cut for hear. The Pacific works educed the usual wheat average in that

beyond redemption and most be cut for hay. The Pacific rural press estimates that the wheat yield will be about 92,000. 000 bushels, a decrease from last year of 6,000,000 bushels.

VIOLATING INTERNATIONAL LAW. Soldiers of Nicaragua Train a Big Gun or a Pacific Mall Steamship,

SAN DIEGO, Cal., May 23 .- An incident that may lead to government inquiry was reported by a passenger on the Pacific all steamer City of New York, Captain Johnson, which arrived this morning from Panama en route for San Francisco. On the passage down the steamer did not touch at San Juan del Sur because of the revolution in Nicaragua. On entering the port of Carinto the passengers were amazed to see soldiers training a big Krupp gun on the vessel from the government barracks all ready, as it was afterwards learned to touch it off. This is in direct contravention of international courtesy. The government officers then boarded the vessel to search her, the supposition being she had touched at San Juan where the revolutionists were in control, and tringing revolutionists to aid in seizing Carinto. from Panama en route for San Francisco

It is further learned that the same gun had been trained on the San Jose of that line on the ''up' ' voyage. During the search there debarked the new American minister to Nicaragua, Salvador and Costa Rica, Hon. Louis Baker of St. Paul secompanied by his two daughters who had come from Panama.

"We find the appeal in order and recommend that parties be heard in accordance with the provisions of the book of discipline. We ask this for the following reasons: The majority report pre-judges the appeal by advising the assembly to do what the book of discipline says shall be determined only after the parties have been heard. This report was signed by Messrs, Stebbins and was signed by Messrs. Stebbins and

The majority report fixed for assembly the very form of verdict which it was asked to reach. This the minority thought was not regular nor lawful. The minority did not deem it proper to prejudge the cases, and therefore refrained from bringing in their individual opinions to influence the assembly. That the case should not be entertained was then adopted, when a motion to pass a second resolution limiting debate to three hours was offered. When Mr. Cutcheon, of Detroit, moved to strike out the limitation. At this point Dr. Brigg arose to address the assembly, and immediately he and the moderator engaged in an animated colloquy upon his right to be heard. WASHINGTON, May 23 .- Dr. Mott Smith, who until recently has been recognized as the representative at Washington of whatever government there may be at Hawaii, has returned to the city. He confirmed the unofficial announcement that Lorin Thurston was appointed by the provisional government of Hawaii as

its representative at Washington. At the same time Dr. Smith is in a quandary. The United States, in Dr. Smith's opinion, has never officially recognized the provisional government now ruling in Hawaii. It is true that Minister Stevens recognized the new government, but from what Commissioner Blount has made public it is difficult to understand whether the present administration recognizes the provisional government or not.

Dr. Smith is therefore at a loss as to his future conduct. He proposes, however, when Thurston arrives here as the new minister from Hawaii to introduce him to Secretary Gresham as his successor and throw upon Gresham the responsibility of deciding whom the United States will recognize as minister from Hawaii.

Reasons Why She Is Ordered from the

Pacific Coast. WASHINGTON, May 23.-There have been some speculation in naval circles as

cial affairs of the country are anything but healthful. All advocates of silver assert that a conspiracy exists for its demoralization to the end that contraction may ensue and the inter-state bankers and money leaders be subserved. As bimetallists have given this assertion careful consideration and candor complete the city and this afternoon the royal party enjoyed a tally-ho trip to the cabin of John S. Bridges on the Potomor river, Duke Temames bandled the reins. This evening the marine band serenated the Infanta. After four pieces were rendered the princrss expressed a desire to hear the "Star Spangled Banner." During the rendition she appeared at the window and was greeted with cheers.

An excursion to Mount Vernon and a reception to the diplomatic corps in the evening is the programme for tomorrow, it is expected the infanta will leave Washington for New York Thursday morning next at 10 o'clock and leave New York for Chicago on the 30th inst.
